This Remuneration Policy in the area of remuneration of the management board has been adopted by the General Meeting pursuant to article 18.1 of the Articles of Association.

- 1.1 Any amendments to this Remuneration Policy shall be adopted by the General Meeting on the proposal of the Supervisory Board in accordance with article 18.1 of the Articles of Association.

## **2. PRINCIPLES<sup>1</sup>**

- 2.1 The level and structure of the remuneration which the Managing Directors receive from the Company for their work shall be in accordance with and benchmarked against industry standards so that qualified and expert Managing Directors can be recruited and retained.
- 2.2 When the overall remuneration is fixed, its impact on pay differentials within the Company shall be taken into account.
- 2.3 If the remuneration consists of a fixed component and a variable component, the variable component shall be linked to predetermined, assessable and influenceable targets, which are predominantly of a long-term nature. The variable component of the remuneration must be appropriate in relation to the fixed component.
- 2.4 The remuneration structure, including severance pay (if any), shall be simple and transparent. It shall promote the interests of the Company in the medium and long term, may not encourage Managing Directors to act in their own interests or take risks that are not in keeping with the adopted strategy, and may not reward failing Managing Directors upon termination of their engagement.
- 2.5 The level and structure of remuneration shall be determined to balance short-term operational performance, including the results, the share price performance and other non-financial indicators, with the long-term objective of creating sustainable value whilst becoming one of the leaders in the area of molecular microbiology, leveraging the Unyvero platform and suite of fast and comprehensive molecular infectious disease tests to help save lives of hospitalized patients with life-threatening infectious diseases, and taking into account the interests of all stakeholders that are relevant to the Company's long-term value creation.
- 2.6 The amount of compensation which a Managing Director may receive on termination of his engagement may not exceed one year's fixed remuneration component, unless this would be manifestly unreasonable in the circumstances.

The KPI's will relate to the financial results, and operation progress of the Company as well as the individual performance of the respective Managing Director. The bonus entitlement to be awarded is determined by the Supervisory Board.
- 3.5 Under the Stock Option Plan of the Company Managing Directors shall be entitled to receive stock options.

Entitlements to a Managing Director shall be agreed upon between each Managing Director and Supervisory Board in connection with stipulating Managing Directors' challenging targets beforehand. The final grant of stock options to a Managing Director in a particular period depends pro rata on his achievement of these challenging targets. The achievement is to be determined by the Supervisory Board.

Together with the initial grant a Managing Director shall not exceed 200,000 stock options in any event.

Total number of options granted to all Managing Directors together shall not exceed 50% of the SOP pool size at any given time.

Grants to new Managing Directors as part of their recruitment may be granted by the Supervisory Board.
