

Curetis To Attend Key Conferences in the Third Quarter of 2019

Amsterdam, the Netherlands, and Holzgerlingen, Germany, July 2, 2019, 08:00 am CET - Curetis N.V. (the "**Company**" and, together with its subsidiaries, "Curetis"), a developer of next-level molecular diagnostic solutions, today announced that the Company will be attending several key conferences in the third quarter of 2019.

August 2019

European Biotech Investor Day 2019 by Goodwin, Solebury Trout, August 1, 2019 – New York, NY, USA – Company presentation and 1-on-1 investor meetings.

71st AACC Annual Scientific Meeting & Clinical Lab Expo, August 4-8, 2019 – Anaheim, CA, USA – Visit Curetis at booth #3611.

September 2019:

Southwestern Association for Clinical Microbiology (SWACM), September 4-7 – Oklahoma City, OK, USA – Meet Curetis' U.S. sales team to learn more about the Unyvero LRT panel providing clear directions for the treatment of hospitalized pneumonia patients.

H.C. Wainwright Global Life Sciences Conference, September 8-9, 2019 – Lotte New York Palace Hotel, New York, NY, USA – Company presentation and 1-on-1 investor meetings.

Baader Investment Conference – Baader Small-Cap Day, September 27, 2019 – Hotel Sofitel Munich Bayerpost, Munich, Germany – Company presentation and 1-on-1 investor meetings.

###

About Curetis

Curetis N.V.'s (Euronext: CURE) goal is to become a leading provider of innovative solutions for molecular microbiology diagnostics designed to address the global challenge of detecting severe infectious diseases and identifying antibiotic resistances in hospitalized patients.

Curetis' Unyvero System is a versatile, fast and highly automated molecular diagnostic platform for easy-to-use, cartridge-based solutions for the comprehensive and rapid detection of pathogens and antimicrobial resistance markers in a range of severe infectious disease indications. Results are available within hours, a process that can take days or even weeks if performed with standard diagnostic procedures, thereby facilitating improved patient outcomes, stringent antibiotic stewardship and health-economic benefits. Unyvero in vitro

diagnostic (IVD) products are marketed in Europe, the Middle East, Asia and the U.S.

Curetis' wholly owned subsidiary Ares Genetics GmbH is developing next-generation solutions for infectious disease diagnostics and therapeutics. The ARES Technology Platform combines the presumably most comprehensive database worldwide on the genetics of antimicrobial resistances, ARESdb, with advanced bioinformatics and artificial intelligence.
